It is the only powder that is so light and so pure.

Superstition

Governs many an action and will govern this one of ours. It is generally believed that Friday is an unlucky day, and for that reason we have selected

First—We will give a present of a nice doll to every child in its 13th year who will come to the store on either Friday or Saturday and register his or her name in a book kept for the purpose.
Second—We will make a present of a nice oil painting to any person whose bill figures an even 13 dollars or multiple thereof.
Third—To any party of 13 widows who come in a group on either Friday or Saturday we will make each and all a present out of our glassware assortment.

World's Fair Matters.

CHICAGO, July 1.—The local Board of Directors of the World's Fair, by a unanimous vote, decided, subject to the approval of the National Commission, to hold the Fair on the Lake Front and at Jackson Park.

A Deputy Sheriff served upon Chairman Gage a notice of injunction issued at the suit of certain abutting property owners on the Lake Front, restraining the Board from proceeding to occupy that ground for the World's Fair purposes.

MINNEAPOLIS, July 1.—Charles Benson, bookkeeper of the Scandia Bank, has been missing since Wednesday. RAILROAD RUMOR.

A Good Deal of Rumor With Perhaps a Some Cream.

The Los Angeles Herald says: The news reaches us from Death Valley that developments of ore of a very promising description are reported from that section. The Herald for some time past has prepared its readers for such developments. On his last visit to Los Angeles Senator John P. Jones told the writer that he and his partner, D. O. Mills, had made extensive purchases in that region and that sensational developments would be shortly recorded therefrom. These announcements of new ore discoveries must be taken in connection with the recent declaration that the Carson & Colorado Railway is shortly to be extended to a connection with a transcontinental railway. In other words, that it is to be pressed past Keeler to a junction with the Utah Central branch of the Union Pacific.

Reno should see that the delegates to the Democratic State Convention to be held here on the 11th of September are well entertained. Let them go away with a good impression of the town.

CONGRESSIONAL.

The Idaho Bill Passes the Senate.

THE HENDRICK'S MONUMENT

Unveiled To-day at Indianapolis.

More Chinese Captured on the Mexican Border.

Congressional Proceedings.

WASHINGTON, July 1.—The House resumed the consideration of the Federal Election bill, the pending amendment being that offered by Lehlbach, providing that the Chief Supervisor of Elections for each judicial district of the United States shall take such action as is requisite to secure such supervision in every Congressional District as is provided by the laws of the United States.

Considerable discussion followed. Hill of Illinois satirically twitted the Democrats for denouncing the bill, and then rushing pell-mell in support of a proposition which made the provisions of the measure compulsory instead of voluntary.

Stone of Missouri made a constitutional argument against the bill. He said the men who thirty years ago, with rifles in their hands, sought to destroy the autonomy of the nation were no more guilty of high treason than were the men who assemble under the marble arches and bulging dome of this Capitol who were seeking and plotting to destroy the autonomy of the States.

Lehlbach's amendment was rejected—yeas 132, nays 138.

SENATE.

The Senate bill to authorize the leasing of the school lands in the Territory of Oklahoma for the benefit of the public schools was passed.

The Senate has passed the bill for the admission of Idaho.

Morgan introduced a bill, which was referred to the Committee on Public Lands, providing that no person shall enter any of the public lands of the United States in Wyoming under the homestead or other laws who is a bigamist or polygamist, or who teaches, counsels, aids or encourages others to enter into bigamy or polygamy, or who is a member of any association that teaches polygamy.

Dawes, from the Conference Committee on the Legislative appropriation bill, reported that the committee was unable to agree. If the Senate asked for a further conference he desired it be intrusted to other hands.

The Senate insisted and a new committee was appointed.

The Hendricks Monument Unveiled.

By Associated Press.]

INDIANAPOLIS, July 1.—The day for unveiling the Hendricks monument dawned clear and hot, but with a good breeze blowing, and the earliest trains began to pour crowds into the city, and it was early apparent that the crowd would be the largest ever assembled in Indianapolis.

Governor Campbell of Ohio and party and Governor Hill of New York and party arrived yesterday, and among the earliest arrivals to-day was Governor Francis of Missouri.

Every civil and military organization in Indiana, and many from Ohio, Illinois, Kentucky and Missouri, were represented.

The movement which culminated in the unveiling by Mrs. Hendricks of the monument to her dead husband, was non-partisan one, which had its inception on December 7, 1888, in a meeting of representative citizens of Indianapolis of all parties.

The monument stands on the southwest corner of the Capitol grounds.

The parade formed at 1 o'clock, composed of civic and military organizations, the Governors of Ohio, Indiana, New York and Missouri and their staffs and many notable public men.

The procession was a mile and a half long. At 3 o'clock the assembly was called to order around the monument and the final exercises of the unveiling were begun.

A Life-Boat's Long Voyage.

By Associated Press.]

LONDON, July 1.—Captain Kane, formerly in command of the British man-of-war Calliope, has been appointed Captain of the Indefatigable.

A telegram has been received announcing that the life-boat Storm King, which sailed from here to Cape Town, and from the latter place to Albany, West Australia, has completed her long voyage in safety, arriving at Albany to-day.

The Heated Term.

By Associated Press.]

CHICAGO, June 30.—Heavy rain-storms, accompanied with electric discharges, and winds approaching tornadoes, passed over portions of Kentucky and Tennessee yesterday, and much damage from winds and lightning is reported. In Gallatin, Tenn., the African Methodist Church was blown to pieces, and several of the congregation were seriously injured. At Catlettsburg, Ky., lightning set fire to the East Kentucky Normal School, which was completely destroyed. At Vanceburg, Ky., Jerry Scaries, his wife and child were killed by lightning. At Lexington, Ky., collars were flooded and trees thrown down. These storms have followed an excessively heated temperature, and have cooled the atmosphere somewhat.

Dispatches from many points in Illinois, Iowa and Wisconsin, tell of the slight moderation in the temperature, but not enough to afford much relief. Prostrations are still very numerous, and there were quite a number of deaths at various points to-day. All the cities in the States named report an alarming increase in the mortality list, the weather being especially severe on children and invalids.

A heavy shower at St. Louis checked the heated spell, but the sun soon poured its heat down with seemingly additional strength, and the thermometer ran up to the hundreds. Saturday's prostrations numbered thirty-one. There were eleven yesterday, two of them fatal.

In this city there were eight fatal cases of prostration yesterday. The preceding twenty-four hours had marked the culmination of the almost unprecedented period of warmth. According to revised police reports there were eighteen deaths from sunstroke and 117 other cases of heat prostration Saturday, fully one dozen of which are pronounced critical. The County Hospital is overcrowded.

Close Vote Expected.

By Associated Press.]

WASHINGTON, June 30.—A great deal of interest is felt here regarding the vote on Wednesday on the Federal Election bill. The Democrats are solid against the bill, while the Republicans are not unanimous in its favor. Ewart of North Carolina and Lehlbach of New Jersey (Keps.) have already made speeches against the bill, and Coleman of Louisiana will do so to-day. All three will vote against it, and there is ground for the belief that Cheadle of Indiana and Brower of North Carolina will join them. This change of five votes will reduce the Republican majority in the House from twenty to ten. Beside this, the Democratic leaders claim that at least twelve Republicans have agreed to dodge the vote, and they therefore claim that the bill will be defeated in the House. The Republican leaders in this fight—Lodge, McComas, Rowell and Sangen—claim that the bill will pass by at least two majority, and perhaps more.

More Smuggled Chinese Captured.

By Associated Press.]

SAN FRANCISCO, June 30.—A Chronicle's special from San Diego says that ten more Chinese were captured last night in the neighborhood of the Mexican line at Tia Juana, while endeavoring to reach that city from Lower California.

The capture was made by Deputy Customs Collectors Marsh and Goodrich, and the Chinamen were placed in the county jail here early this morning. The men were almost without money, and one of them is in a precarious condition from sickness, supposed to have been caused by hardship and exposure during their wanderings since they were landed by the steamer on Mexican territory.

Bills Approved.

By Associated Press.]

WASHINGTON, July 1.—The President has approved the naval appropriation bill, the invalid pension appropriation bill, the postoffice appropriation bill and the joint resolution providing temporarily for the expenditures of the Government.

Another Test of Courage.

By Associated Press.]

BALTIMORE, July 1.—Captain Murrell and Mary McCormick were married here to-day. Murrell is best known as the rescuer of the passengers of the sinking steamship Danmark.

Probably Murdered.

By Associated Press.]

SPANISHTOWN (Cal.), June 30.—The body of an unknown man was found near here yesterday by hunters. There were two bullet holes through the head and other evidences of foul play. The man was about 60 years of age, and near the body was found a picture canvasser's outfit.

The Hill Farm Mine Full of Black Damp.

A Dangerous Undertaking.

DUNBAR (Pa.), July 1.—The rescuers dug through into the Hill Farm mine at 3:30 this morning, but before they had gone far fire and black damp were encountered, and the men quickly made their way out of the dangerous pit. The fans were then started, and at 9 o'clock this morning nine selected men, including three mine inspectors, District Master Workman Watchorn and Superintendent Sill, started on a search for the thirty entombed men. At 11 o'clock nothing had been heard from them. There is scarcely any hope of the imprisoned men being alive.

It is certain now that the Hill Farm mine is full and has been full of smoke and deadly black damp. There seems to be no doubt that the entombed miners are all dead, and now the question is whether their bodies can be recovered. At 2 P. M. preparations were being made for another descent into the mine. A carload of coffins arrived this morning.

Mysterious Assassination.

By Associated Press.]

SPOKANE FALLS, Wn., June 30.—Last night Peter M. Johnson, a Dane, 24 years of age, accompanied by John Robinson and George Peterson, fellow-countrymen, were on their way to their cabin, in the outskirts of the city. Johnson's companions, who were walking one on each side of him, were suddenly startled by hearing a shot fired, and at the same instant Johnson fell with a bullet-hole in his forehead. Death was instantaneous. Two men were seen to run off in the darkness at the time the shot was fired, but could not be found.

A Free-Trade Canard.

By Cable and Associated Press.]

BERLIN, July 1.—A semi-official denial is made here of the statement published yesterday to the effect that the powers of continental Europe, headed by Germany, had agreed to establish a mutual repressive tariff against American importations if the McKinley bill now pending before the American Congress becomes a law. Germany has taken no steps to counteract any possible injury to her American trade by the enactment of the McKinley bill.

Poisoned With Pickled Mussels.

By Cable and Associated Press.]

DUBLIN, July 1.—The wife and four young children of James O'Connor, a member of the editorial staff of the United Ireland, have been fatally poisoned at a seaside watering place in the County of Dublin by eating pickled mussels. Another child and a servant who also ate of the mussels were prostrated, but are now out of danger.

Hunting for a Bigamist.

By Associated Press.]

SACRAMENTO, June 30.—The authorities are hunting for William Briggs, of Gault, who married Miss Alma Packard on June 18. Briggs, it is alleged, has a wife and baby in Missouri, and five days after his marriage with Miss Packard disappeared, fearing exposure.

C. J. Brookins' stock of fireworks and flags of all sizes shows him to be a friend of "Young America," for he has out these auxiliaries, the average boy would not think he was having any time at all.

Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50 cent and \$1.00 bottles by all leading druggists.

An Old Soldier's Story.

In the late war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic diarrhoea, since then I have used a great amount of medicine, but until I found that which would give me relief. They told me to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used it and it was the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, who, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. Hendrix, Halsey, Ore. For sale by Shoemaker & Co.

Unpleasantness Avoided.

Several months ago, Mr. Henry Plummer of Clements, Cal., who is subject to cramps, was taken with a severe attack. He had been accustomed to get relief by dosing with morphine, but the disagreeable effect that followed would make him miserable for hours after the cramp had been relieved. I persuaded him to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was much pleased with its effect as it was almost instantaneous, and no disagreeable after effects accompanied its use. Chas. Bennett, Manager, Farmers' Trade Union, Clements, Cal. For sale by Shoemaker & Co.

Happy Hoosiers.

Wm. Timmons, Postmaster of Idaho, Ind., writes: "Electric Bitters have done more for me than all other medicines combined, for that bad feeling arising from (Kidney and Liver) trouble." John Leslie, farmer and stockman of same place, says: "Find the Electric Bitter to be the best Liver and Kidney medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and does not care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only say, a bottle at Wm. Fininger's drug store."

Remarkable Rescue.

Mrs. Michael Curtis, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as ever was—free from all the troubles of the Great Discovery at Wm. Fininger's Drug Store, large bottles 50c and \$1.00.

Spring Medicine.

Dr. Gunn's Improved Liver Pills are especially adapted for correcting spring disorders, such as impure blood, tired brain and worn-out body. They act promptly on the liver and kidneys, drive out all impurities from the blood, and malaria from the system. Only one pill at a time. Try them this spring. Sold at 25 cents a box by S. J. Hodgkinson.

NEVADA DEMOCRATS.

The following was taken from the Virginia Chronicle of the 30th ult.: The members of the Democratic State Central Committee met in their rooms in the Marye building this afternoon, General R. P. Keating presiding, and the following members answered to the roll call personally or by proxy: Churchill—L. H. Kent. Douglas—H. Harris. Esmeralda—A. C. May, Eli Johnson, W. A. Ingalls. The following test was adopted for voters at the primary election: "Are you a voter and will you support the nominees of the Democratic party to be made at the State Convention in Reno on September 11?"

The following were appointed a Committee on Resolutions: R. P. Keating, Robert Lewers, Clayton Belknap, W. E. Deal, F. M. Huffaker, John H. Dennis, G. W. Cassidy, H. Harris, W. J. Westerfield, M. S. Bonfield, E. D. Kelly, F. M. Fellows.

"AFTER DARK."

The Thrilling Melodrama Attractively Presented.

The Virginia Chronicle says: The thrilling melodrama "After Dark" was presented at the Opera House last evening in a far more attractive manner than when first produced there. The scenic effects were better managed and the cast was decidedly stronger. Among those deserving especial mention are Miss Laura Biggar, Miss Eleanor Barry, James Ward and J. W. McConnell. Bobby Gaylor's Irish specialties and the fistic set-to between Kelly and Murphy received frequent recalls.

The company will present "After Dark" at McKissick's Opera House to-night.

A Pleasant Surprise.

Rev. R. H. Brady and wife went out last evening to spend a couple of hours, and on their return found the parsonage filled with the young people of the church. After general hand-shaking and refreshments, Miss Zula Harding, in her usual happy manner, stated in a few well-chosen words that their object in coming was to ask the pastor to remain with them another year, kindly proposing to give him and his wife a vacation of two months to go East, and pay their expenses.

W. C. T. U. Convention To-Day.

The Women's Christian Temperance Union of Nevada will be held in the Baptist Church, Reno, July 1 and 2, 1890. Morning session will open at 9 o'clock; afternoon session, 1:30; evening session, 7:30. Mrs. M. L. Wells, National Speaker and Organizer, who comes to the State with the highest recommendations, will give a lecture each evening. Let none fail to hear Mrs. Wells. The public are cordially invited to attend each session of the convention.

Grain Without Irrigation.

Uncle George Crum has sent the Board of Trade a sample of rye raised on the plains about Battle Mountain without irrigation, which proves conclusively that that cereal will flourish without water. It stands fully six feet high, and the heads are from four to six inches long and well filled with grain. It is a fine sample, and may be seen by calling at the GAZETTE office.

The Naval Cadetship.

Professor John E. Bray of Virginia has been appointed a member of the Board to convene here to-morrow and next day for the purpose of examining candidates for the appointment of a cadet to the U. S. Naval Academy at Annapolis, Maryland. The Board convenes at 10 o'clock A. M.

Falling Short.

Reno, like all other towns on the coast, will fall short in population. The GAZETTE does not believe it will exceed 4,000, when it has been variously estimated at between 5,000 and 6,000.

A Free Dance.

A. Nadon has fitted up a nice little hall over his shop on Fourth street, and will dedicate it by giving a free dance Thursday night. Everybody invited.

Changed Hands.

If About to Travel or Emigrate.

The voyager cannot be provided with a safer remedy and protective medicine than Hoyer's Stomach Bitters. Abundant testimony exists to prove that it nullifies harmful climatic influences and the effects of exposure, that it reconciles the stomach to unaccustomed food, and prevents injurious results from impure water. Mariners, tourists, emigrants and miners have all contributed their quota of testimony in its behalf, and its protective influence has been most effectively demonstrated in regions and under conditions where, if not really effective, that fact would have long since been exposed. No case of disorders have its remedial and preventive properties been more conspicuously shown than in cases of intestinal fever, cholera for which it is the most popular specific in the world, both here and in the tropics, where its reputation is second to none. It is what it enjoys on this continent. It is, however, a most agreeable appetizer and purgative.

SOME GOOD SCORES.

The Carson Guards Sustain Their Reputation at the Target.

The Carson Tribune of the 30th ult. says: Considerable interest was taken in the shooting at the Carson Guard range yesterday. The first on the program was a match for \$50 a side between Frank McCulloch and Dick Raycraft. It resulted in a tie, both making the excellent score of 44. The score is appended:

According to Creedmoor rules Raycraft's score was the best, but as it was stipulated in the agreement that the winner should have a clear majority of points, the match will be shot over next Sunday.

Then followed the regular practice of the Guard, with the following result:

There are no codlin moths in the mountains this year, so far as we can learn, says the Nevada City Herald. Some attribute their absence to one cause and some to another. A ST. LOUIS PHYSICIAN.

He Tests a California Production.—His Report.

A St. Louis gentleman whose affliction was sick headaches was surprised at their cure by Joy's Vegetable Sarsaparilla, that he called it to the attention of a relative, who happened to be Dr. F. A. Barrett, the well-known St. Louis physician of 262 Broadway Street. The doctor saw at once that it differed from the potash preparations in that it was purely vegetable, and becoming interested, began a series of investigations, and in a subsequent letter candidly admitted its curative properties, and says:—

Wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulating and effecting a permanent cure. Almost absolute cure for constipation, biliousness, dyspepsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach and bowels, and Joy's Vegetable Sarsaparilla is the best laxative and stomach regulator I have ever seen, and as a general system corrective is almost perfect.
